

Student Management with EDUMAAT

SMARTER STUDENT LIFECYCLE—SIMPLIFIED AND CENTRALIZED

Managing Students with EDUMAAT ERP

The ten ways EDUMAAT empowers schools and colleges to streamline student management from admission to alumni. These features go beyond data collection—they synchronize processes and provide a centralized, intelligent system to track and support students at every stage of their academic journey.

With EDUMAAT, institutions gain the power to oversee every detail of a student's academic life—safely, quickly, and from anywhere.

Smarter Student Management

If you work in an academic or administrative role, you already know the complexity of managing student data. From onboarding to graduation, maintaining accurate records and ensuring student success requires more than spreadsheets and paperwork.

EDUMAAT simplifies student lifecycle management with digital tools that improve transparency, accountability, and communication. Automation eliminates manual errors and helps institutions stay compliant, efficient, and student-centric.

Educational institutions today are not only tasked with imparting knowledge but also expected to deliver seamless operational excellence. Poor data systems, disconnected tools, and legacy processes can impact student outcomes and administrative efficiency.

10 WAYS EDUMAAT TRANSFORMS STUDENT MANAGEMENT

1. End-to-End Student Profile Management

EDUMAAT captures comprehensive student records—admission details, academic history, co-curricular achievements, documents, and more—in one centralized system.

2. Academic Performance Tracking

View grades, attendance, assessments, and academic progress in real time. Generate mark sheets, report cards, and performance insights effortlessly.

3. Attendance and Behavior Logs

Monitor attendance digitally. Track punctuality, leaves, and behavior notes using automated alerts for early intervention when necessary.

4. Role-Based Access and Data Privacy

Ensure only authorized users can access specific student data. Maintain compliance with institutional and governmental privacy policies.

5. Integrated Communication with Students and Parents

Send real-time updates via SMS, email, or mobile app. Whether it's exam results or fee reminders, EDUMAAT ensures timely communication.

6. Student Document Repository

Upload and manage student-related files like transfer certificates, ID proofs, and progress reports in a secure and searchable archive.

7. Hostel and Transport Linking

Manage student logistics by integrating hostel allocations and transport routes with individual student records for smoother operations.

8. Alumni & Post-Completion Tracking

Track alumni records, issue documents, and maintain connections even after graduation—ensuring a lifelong institutional relationship.

9. Customizable Reports & Dashboards

Generate customizable student reports for internal use or regulatory submission. Use graphical dashboards for real-time insights.

10. Mobile-Ready Student Portal

Empower students and parents to access academic details, make payments, and raise queries through a self-service mobile portal.
